

How to Register and Create Card Alerts

Subscription alerts allow card holders

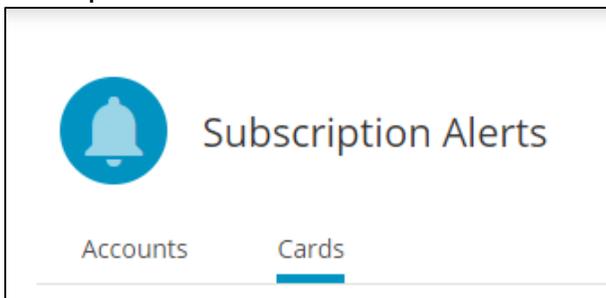

1. Log into digital banking using a web browser or the mobile app
2. Click or tap the 3 dot menu in the top right (web browser) or the bottom right (mobile app)

(Web Browser)

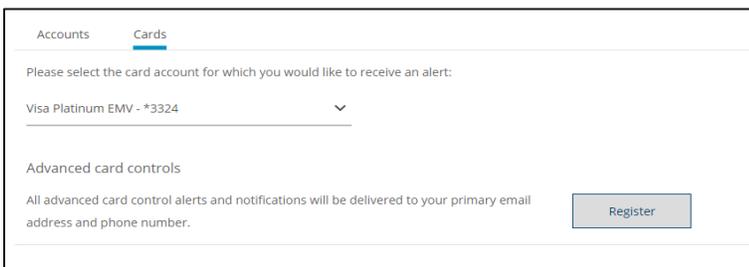

(Mobile)

3. Click or tap Alerts
4. Subscription Alerts will appear on the screen and default to "Accounts" - click or tap on "Cards" to be taken to the options for card Alerts

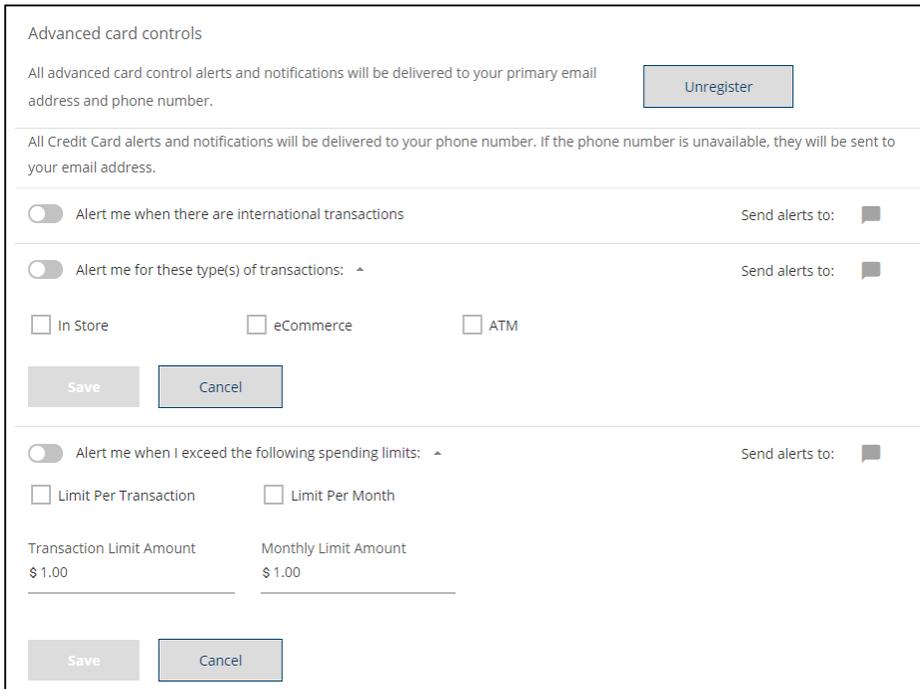

5. The card will need to be registered before it subscription alerts can be enabled.

Select the appropriate card and then click or tap "Register"

6. A message will appear at the bottom of the screen if the card has been successfully registered.
7. There are three main options for subscription alerts: International Transactions, Transaction Types, and Spending Limits

Advanced card controls

All advanced card control alerts and notifications will be delivered to your primary email address and phone number. Unregister

All Credit Card alerts and notifications will be delivered to your phone number. If the phone number is unavailable, they will be sent to your email address.
